Energy Union to bring greater energy security, sustainability and competitiveness
'The fight against climate change (..) will be won or lost on the ground and in the cities where most Europeans live, work and use about 80% of all the energy produced in Europe'

• 6500+ signatories
• 97% of the 820 respondents to a recent survey want the initiative to continue beyond 2020 with a new CO2-reduction target
• 15 October in Brussels: Joint Covenant of Mayors & Mayors Adapt Ceremony
EU support to energy agencies

- **EU contributed to establish >250 local & regional energy agencies (1991-2013)**

- **79 new energy agencies established under Intelligent Energy Europe (2003-13)**
  - EUR 18 million EU contribution
  - See new study on energy agencies (2015)
Intelligent Energy Europe (IEE) support to the CoM

- **EUR 39 million** - Total EU funding
- **34 projects** supporting sustainable energy communities
- **351 unique organisations** supported as co-beneficiaries (12% energy agencies)
- **800 public authorities** supported
- **>500 SEAPs** developed within these projects
Managenergy – network for energy agencies

- **3.5 year** service contract to support actors from public sector and their advisers
- **33 networking events**
- **45 Capacity building workshops**
- **Publications** (directory of energy agencies, good practices brochures, awards)
- Active **website**: [managenergy.net](http://managenergy.net)
Managenergy facilitates exchange

Question: Which of the following local, regional, national and EU initiatives or networks does your agency participate in?
